JCU

Index to Volume 9 (1981)

This index is divided into a Subject Index and an Author Index. Page numbers are continuous through issues. Issues by number, month of publication, and pages are as follows:

Number	*Month*	*Pages*	*Number*	*Month*	*Pages*
1	January	1–50	6	July/August	263–347
2	February	51–104	7	September	349–408
3	March	105–144	8	October	408–465
4	April	145–208	9	November/December	467–520
5	May/June	209–262			

SUBJECT INDEX

ABDOMINAL ABSCESS

Ultrasound gray-scale pattern and guided aspiration puncture of abdominal abscesses. Schwerk & Dürr. 389

ACCEPTANCE TESTS

Slice-thickness artifacts in gray-scale ultrasound. Goldstein & Madrazo. 365

ADENOMA, PARATHYROID

Parathyroid adenoma: Accuracy of preoperative localization by high-resolution real-time sonography. Scheible et al. 325

ADRENAL HEMORRHAGE

Sonography for diagnosis and follow-up of neonatal adrenal hemorrhage. Pery et al. 397

Ultrasound of coexisting right renal vein thrombosis and adrenal hemorrhage in a newborn. Bowen & Smazal. 511

AMEBIC ABSCESS

Amebic abscess: Sonographic follow-up of persistent hepatic defects in two patients one year after successful treatment for amebiasis of the liver. Gooding. 451

ANEURYSMS

Aortic and lower extremity arterial aneurysms. Hirsch et al. 29

Celiac artery aneurysm: Ultrasonic diagnosis. Herzler et al. 141

Ruptured aneurysm of the right sinus of Valsalva: Two pulsed Doppler echocardiographic studies. Yokoi et al. 505

Ultrasound of a superior mesenteric artery aneurysm secondary to pancreatitis: A plea for real-time ultrasound of sonolucent masses in pancreatitis. Gooding. 255

AORTIC INSUFFICIENCY

Mitral valve fluttering in aortic insufficiency. Chin. 198

APPENDIX

Ultrasound findings in mucocele of the appendix. Li et al. 406

BILE DUCT

Acute bile duct dilation with resolution in 43 hours: An ultrasonic demonstration. Gooding. 201

Distal common bile duct obstruction: An experimental study in monkeys. Shawker et al. 77

BILOMA

Ultrasonic characteristics of bilomas. Zegel et al. 21

BIOEFFECTS OF ULTRASOUND

Ultrasonic effects on mammalian multicellular tumor spheroids. Conger et al. 167

BLOOD FLOW

Determination of volume of arterial blood flow by an ultrasonic device. Uematsu. 209

BRAIN, NEONATAL

Detection of neonatal intracranial hemorrhage utilizing real-time and static ultrasound. Johnson et al. 427

Neonatal intracranial pathology demonstrated by high-frequency linear array ultrasound. Sauerbrei et al. 33

Sonographic measurement of lateral ventricular width in early dilation. Fiske et al. 303

BREAST

Ultrasonic appearance of chest wall seromas in mastectomy patients. Lowery & Ekstrand. 260

Ultrasound demonstration of giant malignant breast cyst undetected by xeromammography. Cooke et al. 461

CALIBRATION

Registration errors in compound B-scans. Goldstein. 25

CAROTID STENOSIS

Cerebrovascular assessment during a Doppler carotid scanner and real-time frequency analysis. Johnston et al. 443

CELIAC ARTERY

Celiac artery aneurysm: Ultrasonic diagnosis. Herzler et al. 141

CERVIC

Sonographic evaluation of the incompetent cervix. Bernstine et al. 417

COLON

Ultrasonic appearance of ileocolic intussusception. Morin et al. 516

Ultrasound examination of the colon. Jasinski et al. 206

CONJOINED TWINS

Real-time ultrasound diagnosis of conjoined twins. Wood et al. 195

CONTRAST AGENT

Intravenous carbon dioxide as an echocardiographic contrast agent. Meltzer et al. 127

COR TRIATRIATUM

Diagnosis of cor triatriatum by two-dimensional echocardiography. Weindorf et al. 97

DANDY-WALKER SYNDROME

In utero diagnosis of the Dandy-Walker syndrome: Differentiation from extra-axial posterior fossa cyst. Dempsey & Koch. 403

DEPTH OF STRUCTURES

Three-dimensional echocardiography for spatial visualization and volume calculation of cardiac structures. Matsumoto et al. 157

DOPPLER ULTRASOUND

Cerebrovascular assessment using a Doppler carotid scanner and real-time frequency analysis. Johnston et al. 443

Aortic and lower extremity arterial aneurysms. Hirsch et al. 29

Celiac artery aneurysm: Ultrasonic diagnosis. Herzler et al. 141

Ruptured aneurysm of the right sinus of Valsalva: Two pulsed Doppler echocardiographic studies. Yokoi et al. 505

Ultrasound of a superior mesenteric artery aneurysm secondary to pancreatitis: A plea for real-time ultrasound of sonolucent masses in pancreatitis. Gooding. 255

AORTIC INSUFFICIENCY

Mitral valve fluttering in aortic insufficiency. Chin. 198

APPENDIX

Ultrasound findings in mucocele of the appendix. Li et al. 406

BILE DUCT

Acute bile duct dilation with resolution in 43 hours: An ultrasonic demonstration. Gooding. 201

Distal common bile duct obstruction: An experimental study in monkeys. Shawker et al. 77

BILOMA

Ultrasonic characteristics of bilomas. Zegel et al. 21

BIOEFFECTS OF ULTRASOUND

Ultrasonic effects on mammalian multicellular tumor spheroids. Conger et al. 167

BLOOD FLOW

Determination of volume of arterial blood flow by an ultrasonic device. Uematsu. 209

BRAIN, NEONATAL

Detection of neonatal intracranial hemorrhage utilizing real-time and static ultrasound. Johnson et al. 427

Neonatal intracranial pathology demonstrated by high-frequency linear array ultrasound. Sauerbrei et al. 33

Sonographic measurement of lateral ventricular width in early dilation. Fiske et al. 303

BREAST

Ultrasonic appearance of chest wall seromas in mastectomy patients. Lowery & Ekstrand. 260

Ultrasound demonstration of giant malignant breast cyst undetected by xeromammography. Cooke et al. 461

CALIBRATION

Registration errors in compound B-scans. Goldstein. 25

CAROTID STENOSIS

Cerebrovascular assessment during a Doppler carotid scanner and real-time frequency analysis. Johnston et al. 443

CELIAC ARTERY

Celiac artery aneurysm: Ultrasonic diagnosis. Herzler et al. 141

CERVIC

Sonographic evaluation of the incompetent cervix. Bernstine et al. 417

COLON

Ultrasonic appearance of ileocolic intussusception. Morin et al. 516

Ultrasound examination of the colon. Jasinski et al. 206

CONJOINED TWINS

Real-time ultrasound diagnosis of conjoined twins. Wood et al. 195

CONTRAST AGENT

Intravenous carbon dioxide as an echocardiographic contrast agent. Meltzer et al. 127

COR TRIATRIATUM

Diagnosis of cor triatriatum by two-dimensional echocardiography. Weindorf et al. 97

DANDY-WALKER SYNDROME

In utero diagnosis of the Dandy-Walker syndrome: Differentiation from extra-axial posterior fossa cyst. Dempsey & Koch. 403

DEPTH OF STRUCTURES

Three-dimensional echocardiography for spatial visualization and volume calculation of cardiac structures. Matsumoto et al. 157

DOPPLER ULTRASOUND

Cerebrovascular assessment using a Doppler carotid scanner and real-time frequency analysis. Johnston et al. 443

DUODENUM

Ultrasonic anatomy of the fluid-filled duodenum. Oliva et al. 245

ECHOCARDIOGRAPHY

Beat-to-beat variation in echocardiographic measurements of left ventricular dimensions and function. Bett & Dryburgh. 119

Cardiovascular abnormalities in systemic lupus erythematosus. Chia et al. 237

Diagnosis of cor triatriatum by two-dimensional echocardiography. Weindorf et al. 97

Echocardiographic analysis of systolic and diastolic left ventricular wall motion during transient myocardial ischemia. Conetta et al. 59

Intravenous carbon dioxide as an echocardiographic contrast agent. Meltzer et al. 127

Mitral valve A wave and mitral stenosis. Dabestani et al. 91

M-mode and cross-sectional echocardiographic diagnosis of right ventricular cavity masses. Krivokapich et al. 5

Relationship between the pericardial and pleural spaces in cross-sectional imaging. Lewandowski et al. 271

Ruptured aneurysm of the right sinus of Valsalva: Two pulsed Doppler echocardiographic studies. Yokoi et al. 505

Three-dimensional echocardiography for spatial visualization and volume calculation of cardiac structures. Matsumoto et al. 157

Two-dimensional echocardiography of Lutembacher's syndrome. Alvarez et al. 455

Echogenicity caused by stable microbubbles in a protein-lipid emulsion. Davis et al. 249

In vitro demonstration of an echogenic emulsion: Relationship of lipid particle size to echo detection. Davis et al. 263

ECHOGRAMS

Shadowing and enhancement in ultrasonic echograms by reflection and refraction. Robinson et al. 181

ECTOPIC PREGNANCY

Pseudogestational sac in ectopic pregnancy: Sonographic and pathologic correlation. Spirt et al. 338

The sonographic features of intra-abdominal pregnancy. Allibone et al. 383

ESOPHAGEAL ATRESIA

Prenatal detection of esophageal atresia. Zemlyn. 453

EXTREMITIES

Evaluation of the lower extremities. Lenkey et al. 413

FETAL BOWEL ATRESIA

Hyperdistended fluid-filled bowel loops mimicking gastrointestinal atresia. Skovbo & Smith-Jensen. 463

FETAL ECHOCARDIOGRAPHY

Fetal echocardiography: Present and future applications. Roczen. 223

FETAL GROWTH

Evaluation of three methods for obtaining fetal weight estimates using dynamic image ultrasound. Deter et al. 421

Prediction of intrauterine growth retardation by sonographic estimation of total intrauterine volume. Chinn et al. 175

The use of ultrasound in the assessment of normal fetal growth: A review. Deter et al. 481

FLUID ECHOGENICITY

Echogenicity caused by stable microbubbles in a protein-lipid emulsion. Davis et al. 249

In vitro demonstration of an echogenic emulsion: Relationship of lipid particle size to echo detection. Davis et al. 263

GALLBLADDER

Cholecystosonography in children with sickle cell disease: Technical approach and clinical results. Cunningham et al. 231

Food particles in the gallbladder mimic cholelithiasis in a patient with a cholecystojejunostomy. Gooding. 346

Mucocutaneous lymph node syndrome with hydrops of the gallbladder diagnosed by ultrasound. Koss et al. 477

Sonographic appearance of adenomyomatosis of the gallbladder. Rice et al. 336

Ultrasonic characteristics of bilomas. Zegel et al. 21

GESTATIONAL AGE

Comparison of methods for determining crown-rump measurement by real-time ultrasound. Nelson. 67

Estimation of gestational age during the first trimester by real-time measurement of fetal crown-rump length and biparietal diameter. Bovicelli et al. 71

HAMARTOMA

Cystic hamartoma of the spleen: CT and sonographic findings. Brinkley & Lee. 136

HEPATIC ARTERY

Variability of the hepatic arterial anatomy: A sonographic demonstration. Marchal et al. 377

HEPATOMEGALY

Ultrasonic determination of hepatomegaly. Gosink & Leymaster. 37

HYDATIDIFORM MOLE

Further observations on the sonographic spectrum of gestational trophoblastic disease. Munyer et al. 349

Molar pregnancy: Early diagnosis by ultrasound. Wittman et al. 153

HYDROCEPHALUS

Sonographic measurement of lateral ventricular width in early dilation. Fiske et al. 303

HYDROPS FETALIS

Fetal ultrasound findings in α-thalassemia major. Kurtz et al. 257

ILEUM

The ultrasonic appearance of ileocolic intussusception. Morin et al. 516

IMAGE ARTIFACT

Slice-thickness artifacts in gray-scale ultrasound. Goldstein & Madrazo. 365

INTRA-ABDOMINAL PREGNANCY

The sonographic features of intra-abdominal pregnancy. Allibone et al. 383

ISOIMMUNIZATION

Ultrasound in the evaluation and management of the isoimmunized pregnancy. Weiner et al. 315

KIDNEY

Congenital mesoblastic nephroma with cystic component. Grider et al. 43

Lymphoma of the kidneys: Unusual ultrasound appearance due to infiltration of the renal sinus. Gregory & Behan. 343

Ultrasonic detection of renal calcui: Accuracy tested in an in vitro porcine kidney model. Stafford et al. 359

LEIOMYOSARCOMA

Sonographic features of gastrointestinal leiomyosarcoma. Kaftori et al. 11

LIVER

Amebic abscess: Sonographic follow-up of persistent hepatic defects in two patients one year after successful treatment for amebiasis of the liver. Gooding. 451

B-scan echo-amplitude measurement in patients with diffuse infiltrative liver disease. Shawker et al. 293

Pre- and postoperative hepatic transplant evaluation by ultrasound and computerized tomography. Zegel et al. 101

Ultrasonic determination of hepatomegaly. Gosink & Leymaster. 37

Variability of the hepatic arterial anatomy: A sonographic demonstration. Marchal et al. 377

LUNG HYPOPLASIA

Ultrasonic real-time diagnosis of fetal hydrothorax and lung hypoplasia. Bovicelli et al. 253

LUTEMBACHER'S SYNDROME

Two-dimensional echocardiography of Lutembacher's syndrome. Alvarez et al. 455

LYMPHOMA

Lymphoma of the kidneys. Unusual ultrasound appearance due to infiltration of the renal sinus. Gregory & Behan. 343

MEASURING SYSTEM

A microcomputer measuring system applied to real-time ultrasound video imaging. Godfrey et al. 309

MEDIASTINUM

Relationship between the pericardial and pleural spaces in cross-sectional imaging. Lewandowski et al. 271

MENINGOCELE

Lateral lumbar meningocele: A possible pitfall in renal sonography. Marano & Elyaderani. 334

METALLIC FOREIGN BODIES

Ultrasonic appearance of metallic foreign bodies in parenchymal organs. Wendell & Athey. 133

MITRAL VALVE

Mitral valve A wave and mitral stenosis. Dabestani et al. 91

Mitral valve fluttering in aortic insufficiency. Chia. 198

MOLAR PREGNANCY

Molar pregnancy: Early diagnosis by ultrasound. Wittman et al. 153

Further observations on the sonographic spectrum of gestational trophoblastic disease. Munyer et al. 349

MONONUCLEOSIS

Ultrasonic demonstration of splenic rupture in infectious mononucleosis. Miller et al. 519

MUCOCELE

Ultrasound findings in mucocele of the appendix. Li et al. 406

MYOCARDIAL ISCHEMIA

Echocardiographic analysis of systolic and diastolic left ventricular wall motion during transient myocardial ischemia. Conetta et al. 59

NEONATES

Detection of neonatal intracranial hemorrhage utilizing real-time and static ultrasound. Johnson et al. 427

Neonatal intracranial pathology demonstrated by high-frequency linear array ultrasound. Sauerbrei et al. 33

Sonography for diagnosis and follow-up of neonatal adrenal hemorrhage. Pery et al. 397

Ultrasound of a coexisting right renal vein thrombosis and adrenal hemorrhage in a newborn. Bowen & Smazal. 511

OBSTETRICS

Antepartum diagnosis of a succenturiate lobe: Sonographic and pathologic correlation. Spirt et al. 139

Clinically silent retroplacental hematoma: Sonographic and pathologic correlation. Spirt et al. 203

Comparison of abdominal circumference measurements by real-time and B-scan techniques. Clement et al. 1

Comparison of methods for determining crown-rump measurement by real-time ultrasound. Nelson. 67

Estimate of gestational age during the first trimester by real-time measurement of fetal crown-rump length and biparietal diameter. Bovicelli et al. 71

Evaluation of three methods for obtaining fetal weight estimates using dynamic image ultrasound. Deter et al. 421

Fetal echocardiography: Present and future applications. Roczen. 223

Fetal elevation: A new technique for placental localization in the diagnosis of previa. Lee et al. 467

Fetal ultrasound findings in α-thalassemia major. Kurtz et al. 257

Hyperdistended fluid-filled bowel loops mimicking gastrointestinal atresia. Skovbo & Smith-Jensen. 463

In utero diagnosis of the Dandy-Walker syndrome: Differentiation from extra-axial posterior fossa cyst. Dempsey & Koch. 403

Placenta previa: Avoiding false-negative diagnosis. Laing. 109

Prediction of intrauterine growth retardation by sonographic estimation of total intrauterine volume. Chinn et al. 175

Prenatal detection of esophageal atresia. Zemlyn. 453

Real-time ultrasound diagnosis of conjoined twins. Wood et al. 195

Renal agenesis: Spectrum of in utero findings. Dubbins et al. 189

Sonographic evaluation of the incompetent cervix. Bernstine et al. 417

Ultrasonic prediction of complications following normal vaginal delivery. Lipinski et al. 17

Ultrasonic real-time diagnosis of fetal hydrothorax and lung hypoplasia. Bovicelli et al. 253

Ultrasound in the evaluation and management of the isoimmunized pregnancy. Weiner et al. 315

Ultrasound screening in a twin pregnancy with high serum alpha-fetoprotein. Finlay et al. 514

The use of ultrasound in the assessment of normal fetal growth: A review. Deter et al. 481

OVARY

Abdominal ultrasound in advanced ovarian carcinoma. Paling & Shawker. 435

Medical implications of ultrasonically detected polycystic ovaries. Swanson et al. 219

Sonographic monitoring of ovarian follicular development. Fleisher et al. 275

Ultrasonic evaluation of therapeutic responses in tumors: Its value and implications. Paling et al. 281

Ultrasound in the ovarian hyperstimulation syndrome. Rankin & Hutton. 467

PANCREAS

Pancreatic plasmacytoma: Sonographic and computerized tomographic findings. Rice et al. 46

Sonography of islet cell tumor of the pancreas: Report of two cases. Raghavendra & Glickstein. 331

Ultrasound of a superior mesenteric artery aneurysm secondary to pancreatitis: A plea for real-time ultrasound of sonolucent masses in pancreatitis. Gooding. 255

PARATHYROID GLANDS

Parathyroid adenoma: Accuracy of preoperative localization by high-resolution real-time sonography. Scheible et al. 325

PARENCHYMAL ORGANS

Ultrasonic appearance of metallic foreign bodies in parenchymal organs. Wendell & Athey. 133

PELVIC SONOGRAPHY

Rapid oral hydration: A cause of pelvic fluid collections at sonography. Sukov & Whitcomb. 115

Sonographic monitoring of ovarian follicular development. Fleisher et al. 275

PLACENTA PREVIA

Fetal evaluation: A new technique for placental localization in the diagnosis of previa. Lee et al. 467

The length of the uterine cervix and its significance. Zemlyn. 267

Placenta previa: Avoiding false-negative diagnoses. Laing. 109

PLATELET DAMAGE

The use of β-thromboglobulin to detect platelet damage by therapeutic ultrasound in vivo. Williams et al. 145

POLYCYSTIC OVARIES

Medical implications of ultrasonically detected polycystic ovaries. Swanson et al. 219

POLYPS, GASTRIC

Sonography of polypoid gastric lesions by the fluid-filled stomach method. Kremer & Gröbner. 51

PYLORIC STENOSIS

Ultrasound in the diagnosis of hypertrophic pyloric stenosis. Blumhagen & Coombs. 289

REAL-TIME ULTRASOUND

Cerebrovascular assessment using a Doppler carotid scanner and real-time frequency analysis. Johnston et al. 443

Comparison of abdominal circumference measurements by real-time and B-scan techniques. Clement et al. 1

A microcomputer measuring system applied to real-time ultrasound video imaging. Godfrey et al. 309

Range ambiguities in real-time ultrasound. Goldstein. 83

Ultrasonic detection of renal calculi: Accuracy tested in an in vitro porcine kidney model. Stafford et al. 359

RENAL AGENESIS

Renal agenesis: Spectrum of in utero findings. Dubbins et al. 189

RENAL SONOGRAPHY

Lateral lumbar meningocele: A possible pitfall in renal sonography. Marano & Elyaderani. 334

RENAL VESSELS

Normal left renal vein mimicking left renal artry aneurysm. Kurtz et al. 105

RETROPERITONEUM

Normal left renal vein mimicking left renal artery aneurysm. Kurtz et al. 105

RETROPLACENTAL HEMATOMA

Clinically silent retroplacental hematoma: Sonographic and pathologic correlation. Spirt et al. 203

SCLEREDEMA

The ultrasonic evaluation of skin thickness in scleredema. Cole et al. 501

SEROMAS

Ultrasonic appearance of chest wall seromas in mastectomy patients. Lowery & Ekstrand. 260

SICKLE CELL DISEASE

Cholecystosonography in children with sickle cell disease: Technical approach and clinical results. Cunningham et al. 231

SKIN THICKNESS

The ultrasonic evaluation of skin thickness in scleredema. Cole et al. 501

SLE

Cardiovascular abnormalities in systemic lupus erythematosis. Chia et al. 237

SPLEEN

Cystic hamartoma of the spleen: CT and sonographic findings. Brinkley & Lee, 136

Ultrasonic demonstration of splenic rupture in infectious mononucleosis. Miller et al. 519

STOMACH

Sonography of polypoid gastric lesions by the fluid-filled stomach method. Kremer & Gröbner. 51

Ultrasound in the diagnosis of hypertrophic pyloric stenosis. Blumhagen & Coombs. 289

SUCCENTURIATE LOBE

Antepartum diagnosis of a succenturiate lobe: Sonographic and pathologic correlation. Spirt et al. 139

TESTIS

Echographic findings in Sertoli cell tumor of the testis. Cunningham. 341

α-THALASSEMIA MAJOR

Fetal ultrasound findings in α-thalassemia major. Kurtz et al. 257

THERAPEUTIC ULTRASOUND

The use of β-thromboglobulin to detect platelet damage by therapeutic ultrasound in vivo. Williams et al. 145

TISSUE CHARACTERIZATION

B-scan echo-amplitude measurement in patients with diffuse infiltrative liver disease. Shawker et al. 293

TUMOR, ABDOMINAL

Sonographic features of gastrointestinal leiomyosarcoma. Kaftori et al. 11

TUMOR, CARDIAC

M-mode and cross-sectional echocardiographic diagnosis of right ventricular cavity masses. Krivokapich et al. 5

TUMOR, CERVICAL

Ultrasonic evaluation of a cervical mass in pregnancy. Mack et al. 49

TUMOR, OVARIAN

Abdominal ultrasound in advanced ovarian carcinoma. Paling & Shawker. 435

Ultrasonic evaluation of therapeutic response in tumors: Its value and implications. Paling et al. 281

TUMOR, PANCREATIC

Pancreatic plasmacytoma: Sonographic and computerized tomographic findings. Rice et al. 46

Sonography of islet cell tumor of the pancreas: Report of two cases. Raghavendra & Glickstein. 331

TUMOR, RENAL

Congenital mesoblastic nephroma with cystic component. Grider et al. 43

TUMOR, TESTICULAR

Echographic findings in Sertoli cell tumor of the testis. Cunningham. 341

ULTRASOUND BIOEFFECTS

Ultrasonic effects on mammalian multicellular tumor spheroids. Conger et al. 167

ULTRASOUND, STATISTICS

Ultrasound: State of the art. Janus & Janus. 217

Utilization of diagnostic ultrasound in a controlled setting. Barer & Cooperberg. 495

ULTRASOUND TECHNOLOGY

Shadowing and enhancement in ultrasonic echograms by reflection and refraction. Robinson et al. 181

UTERUS

Involution of the postpartum uterus: An ultrasonic study. VanRees et al. 55

The length of the uterine cervix and its significance. Zemlyn. 267

VASCULAR SONOGRAPHY

Aortic and lower extremity arterial aneurysms. Hirsch et al. 29
